

The future is bright for IPERS

This past election season brought a flurry of worry and concern from IPERS members who thought the pension plan may be in jeopardy. In this annual summary you'll learn just how strong and secure the System is and why the future is looking bright.

IPERS' Trust Fund grew to over \$32 billion this past year, after experiencing an 8 percent gain on investments. Our investment performance goal is 7 percent. This is an important measure because investments pay for 70 percent of member benefits.

Our funded status increased a full percent from last year and now stands at 82.4 percent. Industry experts say pension plans funded at 80 percent or greater are financially healthy. In addition, the unfunded actuarial liability decreased this year.

Another positive sign is there will not be an increase in contributions. In fact, the contribution rates for Special Service members will decrease as of July 1, 2019.

Changes to the IPERS plan that were put in place in 2012 are having the desired effects of improving funding. Pensions have a long time horizon and changes just take time. Staying the course will ensure that IPERS remains strong and secure.

AN ANNUAL SUMMARY FOR THE FISCAL YEAR ENDED JUNE 30, 2018

This report conforms with generally accepted accounting principles (GAAP).

Investments play the single most important role in funding IPERS. This year, the Trust Fund grew to \$32 billion; that's after \$2 billion was paid out in benefits.

IPERS' long-term investment assumption is 7%. This year, the Fund achieved an 8% return, bumping up the funded ratio by a full percent. While that's good, it's more important to have solid performance over the long haul.

A funded ratio of 80% or greater is an indicator of a strong and secure pension fund. For FY2018, IPERS' funded ratio is 82.4%. Often considered one of the best pension systems in the U.S., IPERS is on track to be fully funded in 26 years.

A Letter from the Governor & Lt. Governor

Since its establishment more than 65 years ago, IPERS has been there for its members.

IPERS is a solid retirement plan. It provides an essential lifetime benefit for public employees, helping them care for themselves instead of relying on social services. IPERS is an important way to attract and retain a quality

workforce which is essential for maintaining strong Iowa communities.

IPERS is prefunded with contributions from both employers and employees. The funds are pooled and professionally invested, and the contributions grow to cover earned retirement benefits paid in the future.

The Iowa Legislature made changes to IPERS in 2012 that put the program on track for full funding. We are proud of how efficiently IPERS provides safe and secure lifetime benefits for one in ten Iowans.

We will protect IPERS today, tomorrow and into the future. Count on it to be there for you.

Total net position restricted for pensions increased from \$30.779 billion on June 30, 2017, to \$32.315 billion on June 30, 2018. These assets consist of capital assets owned by IPERS and investment portfolio assets. In FY2018, employee and employer contributions, including service purchases, totaled \$1.203 billion, while total member benefits equaled \$2.111 billion. The resulting \$908 million contribution shortfall was funded with earnings and sales proceeds from the investment portfolio.
